| 9 | 73 | 0 | 1 |

Affordable Unit Mix:

| 0 BD | 1 BD | 2 BD | 3 BD | 4 BD |
|------|------|------|------|------|
| 0 | 24 | 32 | 26 | 0 |

Development Team

Developer: Community HousingWorks

Architect: Mark Steele, M.W. Steele Group, Inc.

Development Budget

Total Development Costs: \$29,606,731
Agency Subsidy Requested: \$5,600,000
Agency Subsidy per Unit: \$68,293

Funding Sources

4% Tax Credits; Redevelopment Agency; San Diego Housing Commission; Developer Equity

Project Description

The proposed Florida Street Apartments would consist of 82 affordable rental units plus one market-rate manager's unit. The project would include subterranean parking, energy conservation systems, and the implementation of "green" building technologies, such as on-site generation of electrical power utilizing photovoltaic panels and water conservation measures. Units would range from one to three bedrooms in size and would be restricted to families earning 50% to 60% of the area median income. The units, rising up to four stories high, would surround two courtyards. Construction began in August 2011 and is anticipated to be completed by the end of 2012.
